

GDPR SUITE

GDPR Training

General data protection regulation (GDPR)
courses for your organisation in The UK

Our GDPR solution is a suite of 13 digital learning modules delivered in relevant and targeted courses, and written with information security experts Clayden Law.

Fully responsive & accessible content

Can be tailored, making it specific to your policies

Easily accommodates staff turnover

Supports refresher training

Cost effective over classroom courses & possible breaches

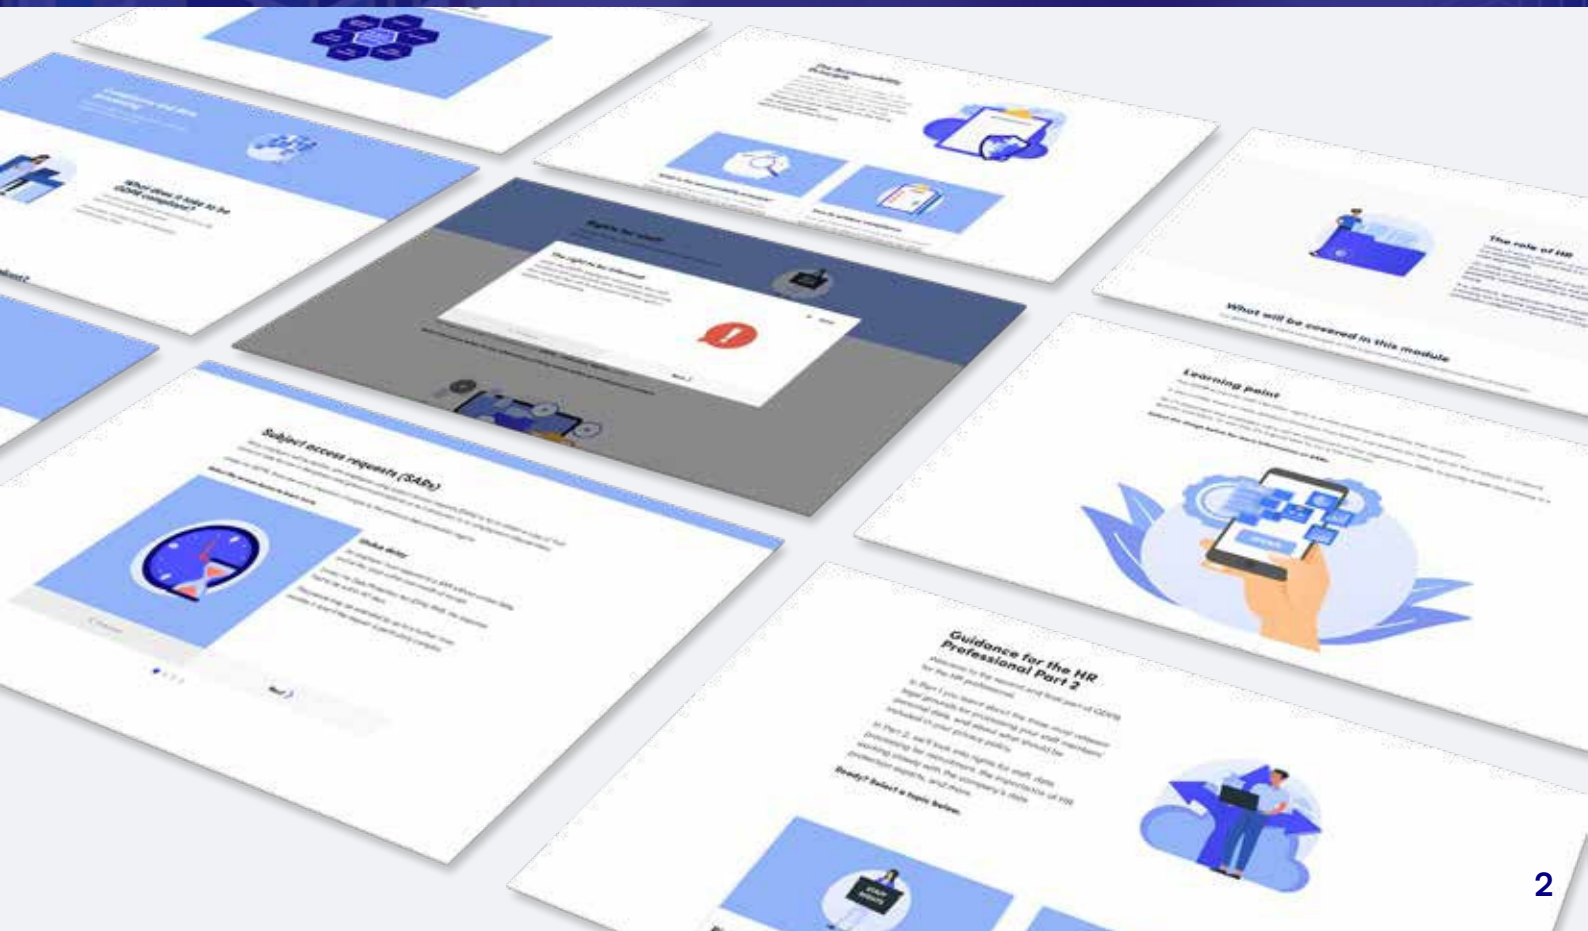

Enables you to demonstrate your compliance using our Learning Management System - Form LMS

form_{LMS}

With Form LMS, you get:

- 12 months access to stop, start and revisit training
- User administration — adding, updating, archiving your learners
- Branding of the site — logo, colours, messaging
- Customised PDF certificates awarded upon completion

What do our learners think?

“This course was very useful - and I like the fact I can still access the modules after I have completed the course so I can go back and check things.”

“Excellent interactive exercises and simply explained, rather than the language used in the actual GDPR documents. Great info for everyone in the company!”

“Brilliant course, very informative & concise. Learnt a lot in such a short amount of time.”

“Concise and easy to use in an ideal module format that allows convenient learning sessions.”
