# What is LearnStream for System C?

LearnStream is an innovative approach for training people how to use Liquidlogic using digital online training, virtual and in-person learning. This end-to-end solution, using a blend of recognised training techniques, is an ideal way to equip people with the skills they need.

It's quick to deploy, easy to remember and cost-effective. Using LearnStream, your organisation will achieve less disruption, reduced risk and an improved return on investment compared to classroom learning.

## Why LearnStream for System C?

### IT'S EFFICIENT

LearnStream improves your return on investment because it is up to 50% more cost-effective than standard face-to-face training. The higher standards of training reduces the risk of incorrect information being processed, improving data quality.

### IT'S END-TO-END

LearnStream is a holistic solution that reduces training time frames by taking care of the entire process — from content development through to delivery. All staff receive consistent, high quality training so they reach full competency quickly.

### IT'S EFFECTIVE

LearnStream guarantees a positive training outcome through regular knowledge reinforcement, and ongoing 24/7 support ensuring employee competency before go-live, after go-live and during business as usual. Training remains available for new starters and agency staff joining an organisation.

# How it works

LearnStream for System C is designed to deliver a comprehensive overview of the essential basic functionality, and navigation around Liquidlogic.

All material is engaging and has been developed in collaboration with subject-matter experts. In addition, all learners have access to consistent digital materials, so they can work at their own pace, fitting training around shift patterns. Learning is always consolidated through repetition and practice and the materials are available for refresher training.

## The LearnStream approach follows 8 key steps:

# How we do this

## **Some additional benefits of LearnStream include:**

- Uses technology to create personalised learning so everybody studies in a way and pace which suits them.
- Quickly deploys to hundreds of people.
- Makes information easier to remember.
- Minimise risks around inaccurate data recording.
- Most cost-effective way to learn.
- Less disruptive for your organisation.

**form** LMS

**Me Learning's own learning platform, Form LMS is versatile, making delivering your organisation's learning effortless.**

Form LMS provides a great experience for managers and learners alike. From a simple interface to robust reporting, it's the perfect way to deploy large-scale training programmes.

**Alternatively, LearnStream's digital content can be delivered through any learning platform.**

## **The knowledge centre**

In addition to training, our system supports users by bringing together a range of useful support and training materials and making them accessible via links within Liquidlogic. This support facility is available 24 hours a day, 365 days a year, thus reducing the number of calls to the support desk.

# FAQ

## SYSTEM C IS CONFIGURED TO THE WAY WE WORK. HOW DO YOUR DIGITAL LEARNING COURSES REFLECT THIS?

Our courses provide an introduction to Liquidlogic and train users on navigation and data entry. It will help users build familiarity and get a good understanding of how to use the systems and why. Training on complex local processes / configuration is a natural follow on from our training.

## WHO USES YOUR COURSES?

We currently work with 56 live customers that use Liquidlogic.

## ARE YOUR COURSES ACCREDITED BY SYSTEM C?

Yes. We work closely with System C to ensure our courses reflect the latest systems configuration and feature new systems functionality.

## CAN WE HAVE A TRIAL VERSION?

Yes, get in touch with your Account Manager or contact us directly.

# About Me Learning

We are a dedicated team of training experts with a strong track-record of creating learning that unlocks workforce potential. For over 17 years, we have provided digital learning for organisations in the public and private sector.

### HIGHLY ACCREDITED

Our accreditation is second to none — Cyber Security Essentials Plus, ISO 27001 and ISO 9001 — we are used to working with organisations requiring the highest level of data security across sectors.

### EASY TO DO BUSINESS WITH

Our team will work with you to achieve your training outcomes and we are on a number of public sector frameworks like a DOS, G-Cloud, ESPO, Bloom and NEPO.

### PROVEN TRACK RECORD OF GREAT LEARNING

We have helped over 800 organisations with their learning and trained 1,000,000 learners on our platform.

**I was initially attracted to Me Learning's Liquidlogic LCS training because it is not simply a 'point and click' training package. LCS has raised many practice issues for us and, I am sure, other authorities. Me Learning has an abundance of 'practice' related guidance and help links which I believe will be of great benefit to us.**
