

# Unleash the value of your software with our systems training

Whatever the size of your workforce and however diverse their learning needs, we help organisations achieve the best training outcomes for the roll-out and upgrade of complex systems.

Our systems training is quick to deploy, easy to remember, cost-effective and can be delivered in Welsh. With this learning solution, your organisation will achieve less disruption, reduced risk and an improved return on investment compared to classroom learning.

# How we do this

Me Learning's systems training will get your people up to speed effectively in a short time on how to use critical systems that drive your organisations success and productivity.

Our innovative training approach, using a blend of recognised training techniques, is an ideal way to equip people with the skills they need, anywhere and on any device.

## Why customers trust our Systems Training

### IT'S EFFICIENT

Our systems training improves your return on investment because it is up to 50% more cost-effective than standard face-to-face training. The higher standards of training reduces the risk of incorrect information being processed, improving data quality.

### IT'S END-TO-END

Our systems training is a holistic solution that reduces training time frames by taking care of the entire process — from content development through to delivery. All staff receive consistent, high quality training so they reach full competency quickly.

### IT'S EFFECTIVE & QUICK TO DEPLOY

Our systems training guarantees a positive training outcome through regular knowledge reinforcement, and ongoing 24/7 support ensuring employee competency before go-live, after go-live and during business as usual. It can be deployed quickly and easily using both digital online training and virtual learning.

# The knowledge centre

In addition to training, our system supports users by bringing together a range of useful support and training materials and making them accessible via a platform known as the Knowledge Centre.

This support facility is available 24 hours a day, 365 days a year, thus reducing the number of calls to the support desk.

## About Me Learning

We are a dedicated team of training experts with a strong track-record of creating learning that unlocks workforce potential. Since 2006, we have provided digital learning for organisations in the public and private sector.

### HIGHLY ACCREDITED

Our accreditation is second to none — Cyber Security Essentials Plus, ISO 27001 and ISO 9001 — we are used to working with organisations requiring the highest level of data security across sectors.

### EASY TO DO BUSINESS WITH

Our team will work with you to achieve your training outcomes and we are on a number of public sector frameworks like a DOS, G-Cloud, ESPO, Bloom and NEPO.

### PROVEN TRACK RECORD OF GREAT LEARNING

We have helped over 800 organisations with their learning and trained 1,000,000 learners on our platform.

“

**Spending several days a week delivering the same training over and over again just wasn't a good use of our time. The feedback on Me Learning has been so positive that we have no intention of going back to classroom training on the basics of Access Mosaic. Using high quality digital learning is a much better way to deliver this type of training.**

**Access Mosaic Business Analyst**

London Borough of Waltham Forest

**The Me Learning solution completely underpins our induction and new user process and has been in use for several years. The system proved invaluable during the pandemic and has changed the way we deliver training. The knowledge centre is an excellent addition, the administration portal is seamless and staff at Me Learning provide frequent updates and advice to ensure we are utilising the benefits of this excellent tool.**
